### 3rd Sunday of Lent

Would you like to know what Pope Francis thinks about the environment? In one of his first Papal addresses to the 1.2 billion Catholics across the world he said:

‘Let us protect Christ in our lives, so that we can protect others, so that we can protect creation! ... Whenever human beings fail to live up to this responsibility, whenever we fail to care for creation and for our brothers and sisters, the way is opened up to destruction and our hearts are hardened.’

Let's live Lent this year and become fully aware of our Christian responsibility towards the earth and our brothers and sisters in the developing world.
